Growing with Knowledge

VISION I We are an empowered learning community, striving for excellence.

Family Air Conditioning Voluntary Contribution

Miami State School is resourced by the State Government through grant funding to provide a core education service to students. Voluntary financial contributions are used by our school to provide enhanced educational services and in this case to improve your child's learning environment. Our P & C and Miami State School Community worked very hard to raise the funds for the installation of air conditioning. All future money collected will be used by the school to offset the costs associated with the maintenance and running of the air conditioning units. The School and the parents share the decision making and responsibility for the operation of the voluntary financial contribution funds. The amount of the requested contribution and the operation of the voluntary contributions are supported by the Parents and Citizens' Association annually. If you wish to make a voluntary financial contribution to the school, please ensure you have read and understand the Operating Statement for the contribution and understand that this contribution is voluntary, and that the funds are to be used to enhance the instruction, administration and facilities of the school.

How to make a contribution

Pay \$30 by direct debit into our school bank account with the reference of student name and AC.

Voluntary Financial Contribution Information Sheet

Each State school is resourced by the State Government through grant funding to provide a core educational service to students. Voluntary financial contributions are used by schools to provide an enhanced educational service and to enhance resources and facilities available for students learning, recreation and comfort.

Operating Statement:

1. The costs of providing instruction, administration and facilities for the education of students at the Scholl are met by the State Government for students enrolled at the school who are Australian citizens or permanent residents, or the children of Australian citizens or permanent residents.
2. The school is resourced by the State Government through school grants to provide a core educational service.
3. Section 58 of the Education (General Provisions) Act 2006 provides that the Principal may ask the parents of a student of the school to make a voluntary financial contribution to supplement government funding for instruction, administration and facilities for the education of the student at the school. If the student is an adult, the Principal may ask the student to make a voluntary financial contribution.
4. Voluntary financial contributions are used by the school to provide an enhanced educational service and to enhance resources available for student learning, recreation and comfort.
5. A voluntary financial contribution is not a fee. Debt recovery action will not be undertaken by the school for non-payment of all or part of a request for a voluntary contribution.
6. A voluntary financial contribution is separate from a student resource scheme that might operate in a school.
7. While the request to parents may indicate a nominated amount, the financial contribution to the school is voluntary, and there is no obligation on a parent to make all or part of the contribution.
8. To enable an informal decision to be made by the parent, the request for a voluntary contribution should indicate how the funds will be used by the school.
9. The school and the parents share the decision-making and the responsibility for the operation of the voluntary financial contribution funds. The amount of the requested contribution and the operation of the voluntary contributions are endorsed by the Parents and Citizens Association annually.
10. The voluntary financial contribution funds may be managed by the school or the Parents and Citizens Association, but not by a third party.
11. The voluntary financial contributions not to be deterrent for a student enrolling at the school, participating in extracurricular activities or undertaking a particular project.
12. Where a parent decides not to make a voluntary financial contribution, instruction, administration and facilities for the education of the student at the school will continue to be provided by the school, and the student will suffer no educational detriment by way of school action as a result of the decision.
13. For any payment by direct deposit a receipt will be issued.
